COPY REQUIREMENTS OF FULFILLED ORDINARY CS INFORMATION REPORTS

- Note 1. Asterisks indicate particularly noteworthy changes or additions.
- Note 2. Parenthesized numbers and designations are for the use of Printing Services and do not actually appear on the report.
- Note 3. All external customers other than standard recipients will get only one copy of a report for which they are "K'd."
- Note 4. When an evaluation is requested by the disseminator, PSD automatically sends one extra copy of the report to the evaluating office.

2. The following dissemination patterns and copy requirements are mandatory minima for internal customers. For external customers the dissemination patterns are recommended but the copy requirements are mandatory. A decision not to disseminate a report to a standard customer should be based on compelling reasons carefully considered.
